JCS Declassification/Release Instructions on File

MEMORANDUM FOR: [REDACTED]

25X1A9a

Acting Chief, Map Division

Subject: Request for Assistance in Evaluating Captured
Geographical and Map Material.

1. This board is preparing a JANIS on European Russia
and subsequent studies on other areas in the near future.

2. In accordance with our conversation, it is therefore
requested that [REDACTED] or other personnel familiar with
German topographic publications on Russia, prepare an evaluated list
on subject studies in order that all our contributors have access to
such material. In addition, data on other captured material on other
areas will also be required.

3. In view of the scarcity of material on Russia, it is
felt that captured German studies will be of great benefit and that
some of them may need to be translated and disseminated. It is sug-
gested that the cooperation of the U.S.S.R. Division be obtained on
this project and that a qualified representative of your division get
in touch with me in order to work out the details of the project. In
view of the need for starting research immediately, the project should
be undertaken at once.
